

Movius for GDPR

Meeting mobile security and compliance requirements.

Meeting mobile security and compliance requirements of the general data protection regulation (GDPR)

Meeting compliance requirements for data security, e-discovery and industry standards without endangering employee privacy becomes complicated in the mobile environment. Movius is at the center of simplifying this complication, providing an application based mobile service that enables compliance to the latest GDPR regulations.

How will these regulations challenge enterprise mobility compliance?

- ◇ Privacy By Design
- ◇ Explicit Consent
- ◇ Data Breach Notification
- ◇ Subject Access Rights

The Movius MultiLine solution delivers a secure business mobile number on your personal device, that is completely separated from any personal communications. This solution clearly separates personal and business calls and texts in a transparent and auditable way.

MultiLine Features & Benefits

- ◇ Provide a secure business mobile number on a employees' personal phone.
- ◇ Manage business communications on a single device with separate contacts, call and SMS logs, voicemail, scheduling, and more.
- ◇ Employees can differentiate between business and personal calls on a single device with distinct Caller ID.
- ◇ All personal data and activity on the primary line remains invisible and untouched by the company.
- ◇ Built-in compliant mobile voice and SMS recording to aid in E-discovery, training, dispute resolution, and quality assurance.
- ◇ Integrates with leading archival platforms to provide long-term archiving capabilities, ensuring business communications from MultiLine are logged, tracked, and archived for eDiscovery.

Conclusion

Movius allows organizations to provide transparent information to data subjects around what is being recorded and what is not. The platform can demonstrate the necessary degrees of separation required to meet the privacy by design imperative of GDPR. By separating the personal and business communications on a single device, MultiLine can enable compliance standards at a low cost of regulatory oversight and organization can feel confident that they are not in breach of GDPR regulations.

About Movius

Movius is the leading global provider in cloud-based secure mobile communications software, helping enterprises deliver better engagement for their clients. Enterprises around the world use the company's all-in-one mobility platform to connect with their customers in more convenient, cost-effective and compliant ways.
